617.20

the terms of

Appendix A State Environmental Quality Review FULL ENVIRONMENTAL ASSESSMENT FORM

Purpose: The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or unmeasurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

Full EAF Components: The full EAF is comprised of three parts:

Part 1:	Provides objective data and information about a given project and its site. By identifying basic project data, it assists a reviewer in the analysis that takes place in Parts 2 and 3.
Part 2:	Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also identifies whether an impact can be mitigated or reduced.
Part 3:	If any impact in Part 2 is identified as potentially-large, then Part 3 is used to evaluate whether or not the impact is actually important.

DETERMINATION OF SIGNIFICANCE Type 1 and Unlisted Actions							
Identify the Portions of EAF completed for this project: x Part 1 x Part 2 Part 3							
Upon review of the information recorded on this EAF (Parts 1 and 2 and 3 if appropriate), and any other supporting information, and considering both the magnitude and importance of each impact, it is reasonably determined by the lead agency that:							
x A.	The project will not result in any large and have a significant impact on the environme						
В.	Although the project could have a significa effect for this Unlisted Action because the therefore a CONDITIONED negative declar	mitigation measu	res described in PAF	-			
C .	C. The project may result in one or more large and important impacts that may have a significant impact on the environment, therefore a positive declaration will be prepared .						
*A Conditio	ned Negative Declaration is only valid for Un	listed Actions

ATTACHMENT H

EXPLANATORY NOTES TO ATTACHMENT H

1. This Attachment H consists of: (a) a Department of Environmental Conservation "Full Environmental Assessment Form" ("EAF") for Verizon's offering of cable service in Larchmont, New York, with Part 1 filled in; (b) an EAF Addendum providing certain additional background information; and (c) exhibits to the Addendum, including maps showing environmentally relevant features of the franchise area and a list of sites included in the SPHINX database of historic sites, as described below.

2. The Attachment is submitted without prejudice to Verizon's positions that: (a) the activities for which it seeks approval in this proceeding are not "actions" under the State Environmental Quality Review Act ("SEQRA"), and that therefore no EAF is required; and (b) if an EAF is required in this case, a short-form EAF will suffice.

3. The EAF and the EAF Addendum are based on information in Verizon's possession or available to us through research in readily available sources. Beyond such sources, we have not undertaken any "new studies, research or investigation."

4. Historic site information was derived from the SPHINX database of the New York State Historic Preservation Office (see http://www.nysparks.state.ny.us/shpo/resources/ index.htm). Coastal area information was obtained from the New York State Geographic Information Systems Clearinghouse website (see http://www.nysgis.state.ny.us/gisdata/ inventories/details.cfm?DSID=317), as was flood plain data (see http://www.nysgis.state.ny.us/ gisdata/inventories/details.cfm?DSID=246). Information on wetlands locations was obtained from the U.S. Fish & Wildlife Service National Wetlands Inventory (see http://www.fws.gov/nwi/) and the Cornell University Geospatial Information Repository (see http://cugir.mannlib.cornell.edu/mapbrowse.jsp?series=counties). Information on agricultural districts was obtained from the Cornell University Geospatial Information Repository (see http://cugir.mannlib.cornell.edu/mapbrowsc.jsp?series=counties). Information on "eritical environmental areas" was obtained from the website of the State Department of Environmental Conservation (http://www.dec.state.ny.us/website/des/sear/cea/index.html). Information on National Natural Landmarks was obtained from the website of the National Park Service (see http://www.nature.nps.gov/nnl/Registry/USA_Map/States/NewYork/new_york.cfm).

5. In response to several questions in Part 1, Verizon has indicated that the question is "Not Applicable" ("N/A") to the confirmation that is the subject of the Petition. The activities to be undertaken pursuant to the franchise for which confirmation is sought involve the delivery of video programming and, thus, do not have a definite location or "area." To the extent any construction + including line extensions, placement of drop wires, extensions, and repairs takes place after the franchise becomes effective, all of the locations within the franchise area at which such activity will occur cannot be known in advance.

¹ See Full Environmental Assessment Form at 2.

The information provided for contiguity to historic sites, etc., has been provided with respect to Verizon's FTTP facilities in the franchise area, even though it is Verizon's position that such facilities have been constructed pursuant to independent permissions and authorities.

PART 1--PROJECT INFORMATION Prepared by Project Sponsor

NOTICE: This document is designed to assist in determining whether the action proposed may have a significant effect on the environment. Please complete the entire form, Parts A through E. Answers to these questions will be considered as part of the application for approval and may be subject to further verification and public review. Provide any additional information you believe will be needed to complete Parts 2 and 3.

It is expected that completion of the full EAF will be dependent on information currently available and will not involve new studies, research or investigation. If information requiring such additional work is unavailable, so indicate and specify each instance.

Name of Action Award of Cable Television Franchise to Verizon						
Location of Action (include Street Address, Municipality and County)

Description of Action:

Activities undertaken by Verizon pursuant to the authority awarded by the franchise.

Please Complete Each Question--Indicate N.A. if not applicable

A. SITE DESCRIPTION

Physical setting of overall project, both developed and undeveloped areas.

1.	Present Land Use: Urban Industrial	Commercial		tial (suburban)	Rural (noi	-
2.	Total acreage of project area:acres.*	 Although Verizon doe issue here, it has detern in the franchise area to of the right-of-way varie time the average width 	mined at Staf date have an es by location	fs request that it approximate ler , and Verizon cal	s FTTP facilities co ngth of 13 miles. T nnot readily detern	onstructed he width hine at this
	Meadow or Brushland (Non-agricultural)			acres		_ acres
	Forested			acres		_ acres
	Agricultural (Includes orchards, cropland, pasture	, etc.)		acres		_ acres
	Wetland (Freshwater or tidal as per Articles 24,2	5 of ECL)		acres		_ acres
	Water Surface Area			acres		_ acres
	Unvegetated (Rock, earth or fill)			acres	<u>+</u> ,	_ acres
	Roads, buildings and other paved surfaces			acres		_ acres
	Other (Indicate type)			acres		_ acres
3.	What is predominant soil type(s) on project site? a. Soil drainage: Well drained Poorly drained b. If any agricultural land is involved, how man	_% of site Mod	-	drained%		Land
	Classification System? acres (see	1 NYCRR 370).	N/A	3	-3	
4.	Are there bedrock outcroppings on project site?	Yes No				
5.	 a. What is depth to bedrock (in feet) Approximate percentage of proposed project site 0-10%% 10-15%% 	with slopes: N/A			zon's FTTP netw rea pass historic n.	
6.	Is project substantially contiguous to, or contain Historic Places?	a building, site, or distr	ict, listed on	the State or Na	tional Registers of	
7.	Is project substantially contiguous to a site listed	on the Register of Nation	onal Natural I	Landmarks?	Yes 🔳	No
8.	What is the depth of the water table?	(in feet) N/A				
9.	Is site located over a primary, principal, or sole so	ource aquifer?	Yes	No No		
10.	Do hunting, fishing or shell fishing opportunities	presently exist in the p	roject area?	Yes	No N/A	

11. Does project site contain any species of plant or animal life that is identified as threatened or endangered?

	According to.
	Identify each species:
12.	Are there any unique or unusual land forms on the project site? (i.e., cliffs, dunes, other geological formations?
	Describe:
13.	Is the project site presently used by the community or neighborhood as an open space or recreation area?
	If yes, explain:
14.	Does the present site include scenic views known to be important to the community?
15.	Streams within or contiguous to project area: N/A
	a. Name of Stream and name of River to which it is tributary
16.	Lakes, ponds, wetland areas within or contiguous to project area: See Addendum.
	b. Size (in acres):

17	. Is the site served by existing public utilities?				
	a. If YES, does sufficient capacity exist to allow connection?				
	b. If YES, will improvements be necessary to allow connection? Yes No				
18	Is the site located in an agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?				
19	. Is the site located in or substantially contiguous to a Critical Environmental Area designated pursuant to Article 8 of the ECL, and 6 NYCRR 617? Yes No * See Addendum				
20	Has the site ever been used for the disposal of solid or hazardous wastes?				
B.	Project Description				
1.	Physical dimensions and scale of project (fill in dimensions as appropriate).				
	a. Total contiguous acreage owned or controlled by project sponsor: <u>N/A</u> acres				
	b. Project acreage to be developed:N/A_ acres initially;N/A_ acres ultimately.				
	c. Project acreage to remain undeveloped: <u>N/A</u> acres.				
	d. Length of project, in miles:* (if appropriate) * See response to Item 2 on Page 3.				
	e. If the project is an expansion, indicate percent of expansion proposed. <u>N/A</u> %				
	f. Number of off-street parking spaces existing N/Λ ; proposed N/Λ				
	g. Maximum vehicular trips generated per hour: <u>N/A</u> (upon completion of project)?				
	h. If residential: Number and type of housing units: N/A				
	One Family Two Family Multiple Family Condominium				
	Initially				
	Ultimately				
	i. Dimensions (in feet) of largest proposed structure: <u>N/A</u> height; <u>N/A</u> width; <u>N/A</u> length.				
	j. Linear feet of frontage along a public thoroughfare project will occupy is? <u>N/A</u> ft.				
2.	How much natural material (i.e. rock, earth, etc.) will be removed from the site? <u>N/A</u> tons/cubic yards.				
3.	Will disturbed areas be reclaimed Yes No N/A				
	a. If yes, for what intended purpose is the site being reclaimed?				
	b. Will topsoil be stockpiled for reclamation?				
	c. Will upper subsoil be stockpiled for reclamation?				
4.	How many acres of vegetation (trees, shrubs, ground covers) will be removed from site? acres. N/A				

5. Will any mature forest (over 100 years old) or other locally-important vegetation be removed by this p	roject?
---	---------

	Yes No	* Although it is Verizon's
6.	If single phase project: Anticipated period of construction months, (including demolition)*	position that any further FTTP construction activity
7.	If multi-phased: N/A	in the franchise area is
	a. Total number of phases anticipated (number)	being Undertaken pursuant to independent authority,
	b. Anticipated date of commencement phase 1 month year, (including demolition)	rather than pursuant to the franchise, Verizon expects
	c. Approximate completion date of final phase: month year.	to complete its build out as
	d. Is phase 1 functionally dependent on subsequent phases?	required by the franchise.
8.	Will blasting occur during construction?	
9 .	Number of jobs generated: during construction $\underline{N/A}$; after project is complete N/A	
10	. Number of jobs eliminated by this project $\underline{N/A}$.	
11.	. Will project require relocation of any projects or facilities?	
	If yes, explain.	
12.	. Is surface liquid waste disposal involved? Lagran Yes 🕒 No	
	a. If yes, indicate type of waste (sewage, industrial, etc) and amount	
	b. Name of water body into which effluent will be discharged	
13.	. Is subsurface liquid waste disposal involved? Yes I No Type	
14.	. Will surface area of an existing water body increase or decrease by proposal? 🛄 Yes 🔳 No	
	If yes, explain:	
15.	. Is project or any portion of project located in a 100 year flood plain? Yes No	
16.	. Will the project generate solid waste? 🛄 Yes 🔳 No	
	a. If yes, what is the amount per month?tons	
	b. If yes, will an existing solid waste facility be used?	
	c. If yes, give name; location;	
	d. Will any wastes not go into a sewage disposal system or into a sanitary landfill?] No

17. Will the project involve the disposal of solid waste?
a. If yes, what is the anticipated rate of disposal? tons/month.
b. If yes, what is the anticipated site life? years.
18. Will project use herbicides or pesticides? Yes No
19. Will project routinely produce odors (more than one hour per day)?
20. Will project produce operating noise exceeding the local ambient noise levels?
21. Will project result in an increase in energy use? 🛄 Yes 🔳 No
If yes, indicate type(s)
22. If water supply is from wells, indicate pumping capacity <u>N/A</u> gallons/minute.
23. Total anticipated water usage per day <u>N/A</u> gallons/day.
24. Does project involve Local, State or Federal funding? 🛄 Yes 🔳 No
If yes, explain:

25.	Approvals Required:			Туре	Submittal Date
				Village of Larchmont	
	City, Town, Village Board	Yes	No No	Award Franchise	11/14/07*
	City, Town, Village Planning Board	Yes	No No	* Franchise was awarde	ed on this date.
	City, Town Zoning Board	Yes	No		
	City, County Health Department	Yes	No No		·
	Other Local Agencies	Yes	■ No		
	Other Regional Agencies	Yes	■ No		
	State Agencies	• Yes	No	Public Service Commission Confirmation	11/16/07
	Federal Agencies	Yes	No		
C. 1.	Zoning and Planning Information Does proposed action involve a plan	ning or zonir	ng decision?	Yes No	
	If Yes, indicate decision required:				— 1
	Zoning amendment	_ Zoning va	riance	New/revision of master plan	Subdivision
	Site plan	Special us	e permit	Resource management plan	Other

- 2. What is the zoning classification(s) of the site? N/A
- 3. What is the maximum potential development of the site if developed as permitted by the present zoning? N/A
- 4. What is the proposed zoning of the site? $$\rm N/A$$

5. What is the maximum potential development of the site if developed as permitted by the proposed zoning? N/A

- 6. Is the proposed action consistent with the recommended uses in adopted local land use plans?
- 7. What are the predominant land use(s) and zoning classifications within a ¼ mile radius of proposed action? N/A

Yes

No N/A

8.	Is the proposed action compatible with adjoining/surrounding land uses with a ¼ mile?
	Is the proposed action compatible with adjoining/surrounding land uses with a $\frac{1}{4}$ mile? Yes No N/A If the proposed action is the subdivision of land, how many lots are proposed? N/A
	a. What is the minimum lot size proposed?

10.V	(ill proposed action require any authorization(s) for the formation of sewer or water districts?	Yes No
ſ		

11. Will the proposed action create a demand for any community provided services (recreation, education, police, fire protection?

a.	If yes, is existing capacity sufficient to handle projected demand?	Yes	No
	I the proposed action result in the generation of traffic significantly at	pove present levels?	Yes No
			·

D. Informational Details

Attach any additional information as may be needed to clarify your project. If there are or may be any adverse impacts associated with your proposal, please discuss such impacts and the measures which you propose to mitigate or avoid them.

E. Verification

I certify that the information provided above is true to the best of my knowledge.

Applicant/Sponsor Name Verizon New York Inc.	Date 11/16/07
Signature Mar H	

Title Vice President Regulatory Affairs, NY & CT

If the action is in the Coastal Area, and you are a state agency, complete the Coastal Assessment Form before proceeding with this assessment.

PART 2 - PROJECT IMPACTS AND THEIR MAGNITUDE Responsibility of Lead Agency

General Information (Read Carefully)

- In completing the form the reviewer should be guided by the question: Have my responses and determinations been reasonable? The reviewer is not expected to be an expert environmental analyst.
- The Examples provided are to assist the reviewer by showing types of impacts and wherever possible the threshold of magnitude that would trigger a response in column 2. The examples are generally applicable throughout the State and for most situations. But, for any specific project or site other examples and/or lower thresholds may be appropriate for a Potential Large Impact response, thus requiring evaluation in Part 3.
- The impacts of each project, on each site, in each locality, will vary. Therefore, the examples are illustrative and have been offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question.
- 1 The number of examples per question does not indicate the importance of each question.
- In identifying impacts, consider long term, short term and cumulative affects.

Instructions (Read carefully)

- a. Answer each of the 20 questions in PART 2. Answer Yes if there will be any impact.
- b. Maybe answers should be considered as Yes answers.
- c. If answering Yes to a question then check the appropriate box(column 1 or 2)to indicate the potential size of the impact. If impact threshold equals or exceeds any example provided, check column 2. If impact will occur but threshold is lower than example, check column 1.
- d. Identifying that an Impact will be potentially large (column 2) does not mean that it is also necessarily significant. Any large impact must be evaluated in PART 3 to determine significance. Identifying an impact in column 2 simply asks that it be looked at further.
- e. If reviewer has doubt about size of the impact then consider the impact as potentially large and proceed to PART 3.
- f. If a potentially large impact checked in column 2 can be mitigated by change(s) in the project to a small to moderate impact, also check the **Yes** box in column 3. A **No** response indicates that such a reduction is not possible. This must be explained in Part 3.

Moderate	Large	Mitigated by
Impact	Impact	Project Change

Impact on Land

1. Will the Proposed Action result in a physical change to the project

site?

NO	Ø	YES	[
----	---	-----	---

Examples that would apply to column 2 Any construction on slopes of 15% or greater, (15 foot rise per 100 foot of length), or where the general slopes in the project area exceed 10%. Construction on land where the depth to the water table is less than 3 feet. Construction of paved parking area for 1,000 or more vehicles.

- Construction on land where bedrock is exposed or generally within 3 feet of existing ground surface.
- Construction that will continue for more than 1 year or involve more than one phase or stage.
- Excavation for mining purposes that would remove more than 1,000 tons of natural material (i.e., rock or soil) per year.

		a		
2.	Will there be an effect to any unique or unusual land forms found on the site? (i.e., cliffs, dunes, geological formations, etc.)			
	Specific land forms:			Yes No
	Impact on Water			
3.	Will Proposed Action affect any water body designated as protected? (Under Articles 15, 24, 25 of the Environmental Conservation Law, ECL)			
	 Examples that would apply to column 2 Developable area of site contains a protected water body. 			Yes No
	 Dredging more than 100 cubic yards of material from channel of a protected stream. 			Yes No
	 Extension of utility distribution facilities through a protected water body. 			Yes No
	Construction in a designated freshwater or tidal wetland.			Yes No
	Other impacts:			Yes No
4.	Will Proposed Action affect any non-protected existing or new body of water?		-	
	 Examples that would apply to column 2 A 10% increase or decrease in the surface area of any body of water or more than a 10 acre increase or decrease. 			Yes No
	 Construction of a body of water that exceeds 10 acres of surface area. 			Yes No
	Other impacts:			Yes No

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
	ill Proposed Action affect surface or groundwater quality or antity? IXNO TYES			
E: •	camples that would apply to column 2 Proposed Action will require a discharge permit.			Yes No
•	Proposed Action requires use of a source of water that does not have approval to serve proposed (project) action.			Yes No
•	Proposed Action requires water supply from wells with greater than 45 gallons per minute pumping capacity.			Yes No
٠	Construction or operation causing any contamination of a water supply system.			Yes No
٠	Proposed Action will adversely affect groundwater.			Yes No
٠	Liquid effluent will be conveyed off the site to facilities which presently do not exist or have inadequate capacity.			Yes No
٠	Proposed Action would use water in excess of 20,000 gallons per day.			Yes No
•	Proposad Action will likely cause siltation or other discharge into an existing body of water to the extent that there will be an obvious visual contrast to natural conditions.			Yes No
•	Proposed Action will require the storage of petroleum or chemical products greater than 1,100 gallons.			Yes No
•	Proposed Action will allow residential uses in areas without water and/or sewer services.			Yes No
•	Proposed Action locates commercial and/or industrial uses which may require new or expansion of existing waste treatment and/or storage facilities.			Yes No
•	Other impacts:			Yes No

		1 Smail to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
6.	Will Proposed Action alter drainage flow or patterns, or surface water runoff?			
	Examples that would apply to column 2			
	 Proposed Action would change flood water flows 			Yes No
	 Proposed Action may cause substantial erosion. 			Yes No
	 Proposed Action is incompatible with existing drainage patterns. 			Yes No
	 Proposed Action will allow development in a designated floodway. 			Yes No
	Other impacts:			Yes No
	IMPACT ON AIR			
7.	Will Proposed Action affect air quality?			
	 Examples that would apply to column 2 Proposed Action will induce 1,000 or more vehicle trips in any given hour. 			Yes No
	 Proposed Action will result in the incineration of more than 1 ton of refuse per hour. 			Yes No
	 Emission rate of total contaminants will exceed 5 lbs. per hour or a heat source producing more than 10 million BTU's per hour. 			□ _{Yes} □ _{No}
	 Proposed Action will allow an increase in the amount of land committed to industrial use. 			Yes No
	 Proposed Action will allow an increase in the density of industrial development within existing industrial areas. 			Yes No
	Other impacts:			Yes No
	IMPACT ON PLANTS AND ANIMALS			
8.	Will Proposed Action affect any threatened or endangered species?			
	 Examples that would apply to column 2 Reduction of one or more species listed on the New York or Federal list, using the site, over or near the site, or found on the site. 			Yes No

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Miligated by Project Change
	Removal of any portion of a critical or significant wildlife habitat.			Yes No
	 Application of pesticide or herbicide more than twice a year, other than for agricultural purposes. 			Yes No
	Other impacts:			Yes No
9.	Will Proposed Action substantially affect non-threatened or non- endangered species?			
	 Examples that would apply to column 2 Proposed Action would substantially interfere with any resident or migratory fish, shellfish or wildlife species. 			Yes No
	 Proposed Action requires the removal of more than 10 acres of mature forest (over 100 years of age) or other locally important vegetation. 			Yes No
	Other impacts:			Yes No
10.	IMPACT ON AGRICULTURAL LAND RESOURCES Will Proposed Action affect agricultural land resources?			·
	 Examples that would apply to column 2 The Proposed Action would sever, cross or limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc.) 			Yes No
	 Construction activity would excavate or compact the soil profile of agricultural land. 			Yes No
	 The Proposed Action would irreversibly convert more than 10 acres of agricultural land or, if located in an Agricultural District, more than 2 5 acres of agricultural land. 			Yes No

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
	 The Proposed Action would disrupt or prevent installation of agricultural land management systems (e.g., subsurface drain lines, outlet ditches, strip cropping); or create a need for such measures (e.g. cause a farm field to drain poorly due to increased runoff). 			Yes No
	• Other impacts:			Yes No
	IMPACT ON AESTHETIC RESOURCES			
11.	Will Proposed Action affect aesthetic resources? (If necessary, use the Visual EAF Addendum in Section 617.20, Appendix B.)			
	 Examples that would apply to column 2 Proposed land uses, or project components obviously different from or in sharp contrast to current surrounding land use patterns, whether man-made or natural. 			Yes No
	 Proposed land uses, or project components visible to users of aesthetic resources which will eliminate or significantly reduce their enjoyment of the aesthetic qualities of that resource. 			Yes No
	 Project components that will result in the elimination or significant screening of scenic views known to be important to the area. 			Yes No
	• Other impacts:			
	IMPACT ON HISTORIC AND ARCHAEOLOGICAL RESOURCES			
12.	Will Proposed Action impact any site or structure of historic, prehistoric or paleontological importance?			
	 Examples that would apply to column 2 Proposed Action occurring wholly or partially within or substantially contiguous to any facility or site listed on the State or National Register of historic places. 			Yes No
	 Any impact to an archaeological site or fossil bed located within the project site. 			Yes No
	 Proposed Action will occur in an area designated as sensitive for archaeological sites on the NYS Site Inventory. 			Yes No

.

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
•	Other impacts:			Yes No
	IMPACT ON OPEN SPACE AND RECREATION			
	proposed Action affect the quantity or quality of existing or future en spaces or recreational opportunities? NO YES			
Exa	mples that would apply to column 2 The permanent foreclosure of a future recreational opportunity.			Yes No
•	A major reduction of an open space important to the community.			Yes No
٠	Other impacts:			
	IMPACT ON CRITICAL ENVIRONMENTAL AREAS		·	
cha pur: List	Proposed Action impact the exceptional or unique racteristics of a critical environmental area (CEA) established suant to subdivision 6NYCRR 617.14(g)? NO YES the environmental characteristics that caused the designation of CEA.			<u></u>
	mples that would apply to column 2			••
•	Proposed Action to locate within the CEA?			Yes No
•	Proposed Action will result in a reduction in the quantity of the resource?			Yes No
•	Proposed Action will result in a reduction in the quality of the resource?			Yes No
•	Proposed Action will impact the use, function or enjoyment of the resource?			Yes No
•	Other impacts:			Yes No

		1 Smail to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
	IMPACT ON TRANSPORTATION			
15. W	III there be an effect to existing transportation systems?			
E> •	amples that would apply to column 2 Alteration of present patterns of movement of people and/or goods.			Yes No
•	Proposed Action will result in major traffic problems.			Yes No
•	Other impacts:			
	IMPACT ON ENERGY			
	If Proposed Action affect the community's sources of fuel or ergy supply?			
Ex •	amples that would apply to column 2 Proposed Action will cause a greater than 5% increase in the use of any form of energy in the municipality.			Yes No
•	Proposed Action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two family residences or to serve a major commercial or industrial use.			Yes No
•	Other impacts:			Yes No
	NOISE AND ODOR IMPACT			
	Il there be objectionable odors, noise, or vibration as a result of e Proposed Action?			
Ex,	amples that would apply to column 2 Blasting within 1,500 feet of a hospital, school or other sensitive facility.			Yes No
•	Odors will occur routinely (more than one hour per day).			Yes No
•	Proposed Action will produce operating noise exceeding the local ambient noise levels for noise outside of structures.			Yes No
٠	Proposed Action will remove natural barriers that would act as a noise screen.			Yes No
•	Other impacts:			Yes No

			1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
		IMPACT ON PUBLIC HEALTH			
18.	Will	Proposed Action affect public health and safety?			
	٠	Proposed Action may cause a risk of explosion or release of hazardous substances (i.e. oil, pesticides, chemicals, radiation, etc.) in the event of accident or upset conditions, or there may be a chronic low level discharge or emission.			Yes No
	٠	Proposed Action may result in the burial of "hazardous wastes" in any form (i.e. toxic, poisonous, highly reactive, radioactive, irritating, infectious, etc.)			Yes No
	•	Storage facilities for one million or more gallons of liquefied natural gas or other flammable liquids.			Yes No
	•	Proposed Action may result in the excavation or other disturbance within 2,000 feet of a site used for the disposal of solid or hazardous waste.			Yes No
	•	Other impacts:			Yes No
		IMPACT ON GROWTH AND CHARACTER OF COMMUNITY OR NEIGHBORHOOD			
1 9 .		Proposed Action affect the character of the existing community?			
	Exa	mples that would apply to column 2. The permanent population of the city, town or village in which the project is located is likely to grow by more than 5%.			Yes No
	•	The municipal budget for capital expenditures or opereting services will increase by more than 5% per year as a result of this project.			Yes No
	•	Proposed Action will conflict with officially adopted plans or goals.			Yes No
	•	Proposed Action will cause a change in the density of land use.			Yes No
	•	Proposed Action will replace or eliminate existing facilities, structures or areas of historic importance to the community.			Yes No
	•	Development will create a demand for additional community services (e.g. schools, police and fire, etc.)			Yes No

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
•	Proposed Action will set an important precedent for future projects.			Yes No
-	Proposed Action will create or eliminate employment.			Yes No
•	Other impacts:			Yes No

ADDENDUM TO ENVIRONMENTAL ASSESSMENT FORM RELATING TO CONFIRMATION OF A CABLE TELEVISION FRANCHISE FOR THE VILLAGE OF LARCHMONT (WESTCHESTER COUNTY), NEW YORK

Setting

The Village of Larehmont is located in the Town of Mamaroneck in Westchester County. As of the 2000 Census, the Village had a population of 6,485 within a total area of 1.07 square miles.

The Village is not within an agricultural district, nor is it substantially contiguous to a National Natural Landmark. The Village may contain or be substantially contiguous to critical environmental areas.¹ A list of sites included in the SPHINX database of historic sites is attached. It is Verizon's policy to conform to all applicable laws and regulations in placing its facilities, including any special requirements that may be applicable to historic sites, districts, or landmarks.

The Village of Larchmont is not located above aquifers. The Village is within a coastal area. It has designated wetlands areas and designated 100-year flood plains. Verizon's FTTP extensions and drop wires will be placed only to serve existing or future residences and businesses and will be consistent with physical arrangements for the provision of non-video communications services (voice, data), and other types of utility service, to such areas. Video programming will be delivered over existing distribution routes and supporting structures. Moreover, cable service is already provided within the franchise area by the incumbent, Cablevision. Thus, Verizon's construction activities would not impact otherwise undeveloped areas.

Three maps are included with this addendum. The first map shows the franchise area, tidal wetlands, and the coastal area boundary. The second map shows freshwater wetlands, lakes and ponds. The third map shows the 100-year flood plains.

Description of Potential Construction Activities

The Commission is being asked to approve the Village's award of a cable television franchise to Verizon. The franchise will enable Verizon to deliver video programming to subscribers over its FTTP network, which is also used for the provision of voice and data services. It is Verizon's position that the construction, extension, modification, and repair of the facilities comprising the FTTP network are independently authorized, do not require franchise authority, and are thus not included within any "action" (within the meaning of SEQRA) for which approval is sought in this proceeding. Nevertheless, at Staff's request, Verizon is providing the following information concerning work on Verizon's FTTP facilities that may be undertaken in the Village subsequent to the Commission's approval of the franchise.

¹ Attached is a page from the State Department of Environmental Conservation web site that lists critical environmental areas designated by the County of Westchester. We do not know whether any of the County-designated areas (*e.g.*, certain watersheds) include land within the Village.

Extensions of Verizon's FTTP network may take place in the Village of Larchmont following the award of the franchise. FTTP construction in the Village's rights-of-way would relate to facilities that will also be used for Verizon's voice and data services. (Any equipment that is utilized exclusively for the provision of cable services in the Village will be located in Verizon's central offices.) Verizon has completed the construction of its FTTP network to approximately 77% of the current households in the franchise area.

When a Verizon subscriber requests the FiOS[™] voice, data, and/or video services that are available over the FTTP network, fiber drop wire is run to the subscriber's home. There are 2,470 households within the Village of Larchmont that could potentially be served with fiber drops.² In terms of the potential environmental impact of drop placement activities, the fiber drops that are associated with FTTP do not differ in any significant respect from the copper drops that Verizon routinely installs, maintains and on occasion replaces in connection with its current services. Moreover, fiber drops will be deployed to customers who request other FiOS services even if such customers do not elect to purchase FiOS video.

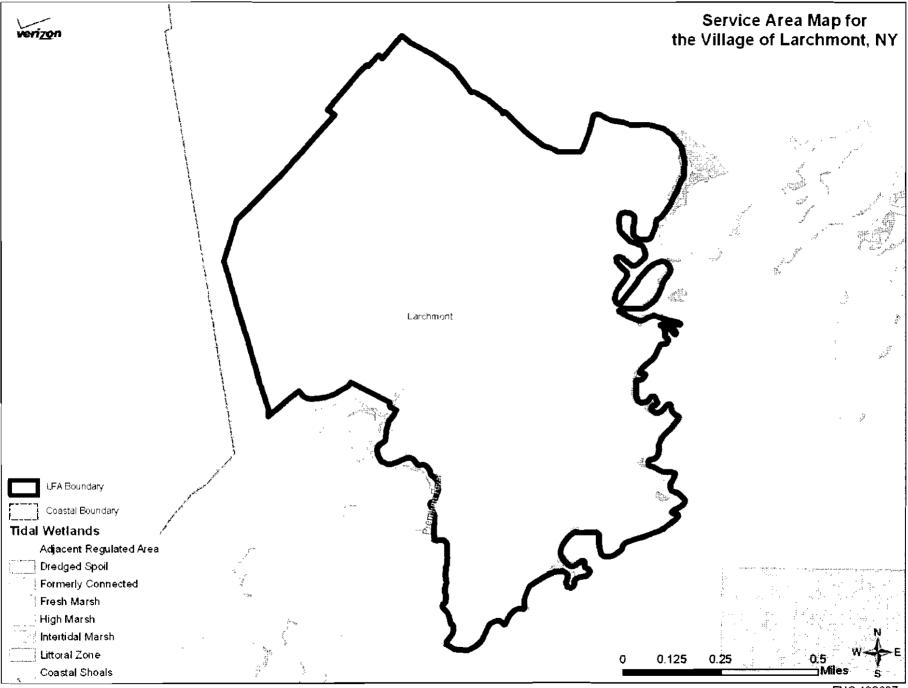

² In general, Verizon's outside plant may include both aerial and underground facilities. Some of the work related to the extension of FTTP facilities and the placement of drops may therefore be underground.
