RE: Request for Confidential Treatment of ESCO Pricing Information

Dear Ms. Giliberto:

In connection with information the Company previously submitted to your office in February 2013, and at the request of Douglas Elfner of the Department of Public Service, Orange and Rockland Utilities, Inc. ("Orange and Rockland" or the "Company") hereby files and requests confidential protection for the attached ESCO Pricing Index.

Orange and Rockland is submitting the ESCO Pricing Index to you under the provisions of Public Officers Law, specifically §89(5)(a) and (b)(1), and requests, on behalf of the ESCOs whose information is being provided, that this information be excepted from disclosure under the provisions of Public Officers Law §87(2)(d) and 16 NYCRR §6-1.3 of the Rules of the Department of Public Service. This information should be treated as confidential and exempted from disclosure.

Information about ESCOs' enrollments and actual prices billed to those customers are trade secrets or confidential commercial information that, if disclosed, could cause substantial competitive injury, not only directly but also in terms of public perception, to the ESCOs participating in the Company's retail access program and retail access programs in the rest of the State. These factors justify exception from disclosure of the information being provided.

If you have any questions, please do not hesitate to contact me at (212) 460-3762.

Sincerely,

/s/ Enver Acevedo
