Footnote: 1

The FCC Form 1240 instructions for Worksheet 8 Lines 801 through 812 state "For each tier, enter the rate which was in effect for each month of True-up Period 1." They go on to state "The rate used should be the figure from your rate card at that time." In its regulated service tier rate on Worksheet 8, CSC has made adjustments to account for the following items:

1. Basic service tier – CSC has adjusted the rate card by \$.04 per subscriber per month in order to properly account for Commission Regulatory Fees. In accordance with the instructions, CSC has included the Maximum permitted Rate from Line I9 of the previous filing as the Current Maximum Permitted rate on Line A1. The I9 rate from the previous filing includes a Commission Regulatory Fee component. In accordance with the instructions, CSC has also included Commission Regulatory Fees as an external cost on Worksheet 7 Line 708. In order for the calculation of the True-Up Period 1 Maximum Permitted Rate in Module F and the True-up Adjustment calculated in Module H to calculate properly, CSC must include Commission Regulatory Fees in Worksheet 8.
2. Basic service tier –
 - According to FCC Form 1240 instructions " The Maximum permitted rate figure calculated on form 1240 does not take into account any refund liability that you may have." In order to comply with this language in the instructions, CSC has removed from its rate card rate for the basic tier, any amounts refunded to subscribers (on a per subscriber per month basis).
 - In addition, for those systems for which a FCC Form 1235 was filed, any basic service tier rate increases implemented based on the 1235 filing have been removed from the rate card rate.

The FCC Form 1240 instructions for Worksheet 8 Lines 801 through 812 state "For each tier, enter the rate which was in effect for each month of True-up Period 1." They go on to state "The rate used should be the figure from your rate card at that time." In its regulated service tier rate on Worksheet 8, CSC has made adjustments to account for the following items:

1. Basic service tier – CSC has adjusted the rate card by \$.04 per subscriber per month in order to properly account for Commission Regulatory Fees. In accordance with the instructions, CSC has included the Maximum permitted Rate from Line I9 of the previous filing as the Current Maximum Permitted rate on Line A1. The I9 rate from the previous filing includes a Commission Regulatory Fee component. In accordance with the instructions, CSC has also included Commission Regulatory Fees as an external cost on Worksheet 7 Line 708. In order for the calculation of the True-Up Period 1 Maximum Permitted Rate in Module F and the True-up Adjustment calculated in Module H to calculate properly, CSC must include Commission Regulatory Fees in Worksheet 8.
2. Basic service tier –
 - According to FCC Form 1240 instructions " The Maximum permitted rate figure calculated on form 1240 does not take into account any refund liability that you may have." In order to comply with this language in the instructions, CSC has removed from its rate card rate for the basic tier, any amounts refunded to subscribers (on a per subscriber per month basis).
 - In addition, for those systems for which a FCC Form 1235 was filed, any basic service tier rate increases implemented based on the 1235 filing have been removed from the rate card rate.

The FCC Form 1240 instructions for Worksheet 8 Lines 801 through 812 state "For each tier, enter the rate which was in effect for each month of True-up Period 1." They go on to state "The rate used should be the figure from your rate card at that time." In its regulated service tier rate on Worksheet 8, CSC has made adjustments to account for the following items:

1. Basic service tier – CSC has adjusted the rate card by \$.04 per subscriber per month in order to properly account for Commission Regulatory Fees. In accordance with the instructions, CSC has included the Maximum permitted Rate from Line I9 of the previous filing as the Current Maximum Permitted rate on Line A1. The I9 rate from the previous filing includes a Commission Regulatory Fee component. In accordance with the instructions, CSC has also included Commission Regulatory Fees as an external cost on Worksheet 7 Line 708. In order for the calculation of the True-Up Period 1 Maximum Permitted Rate in Module F and the True-up Adjustment calculated in Module H to calculate properly, CSC must include Commission Regulatory Fees in Worksheet 8.
2. Basic service tier –
 - According to FCC Form 1240 instructions " The Maximum permitted rate figure calculated on form 1240 does not take into account any refund liability that you may have." In order to comply with this language in the instructions, CSC has removed from its rate card rate for the basic tier, any amounts refunded to subscribers (on a per subscriber per month basis).
 - In addition, for those systems for which a FCC Form 1235 was filed, any basic service tier rate increases implemented based on the 1235 filing have been removed from the rate card rate.

The FCC Form 1240 instructions for Worksheet 8 Lines 801 through 812 state "For each tier, enter the rate which was in effect for each month of True-up Period 1." They go on to state "The rate used should be the figure from your rate card at that time." In its regulated service tier rate on Worksheet 8, CSC has made adjustments to account for the following items:

1. Basic service tier – CSC has adjusted the rate card by \$.04 per subscriber per month in order to properly account for Commission Regulatory Fees. In accordance with the instructions, CSC has included the Maximum permitted Rate from Line I9 of the previous filing as the Current Maximum Permitted rate on Line A1. The I9 rate from the previous filing includes a Commission Regulatory Fee component. In accordance with the instructions, CSC has also included Commission Regulatory Fees as an external cost on Worksheet 7 Line 708. In order for the calculation of the True-Up Period 1 Maximum Permitted Rate in Module F and the True-up Adjustment calculated in Module H to calculate properly, CSC must include Commission Regulatory Fees in Worksheet 8.
2. Basic service tier –
 - According to FCC Form 1240 instructions " The Maximum permitted rate figure calculated on form 1240 does not take into account any refund liability that you may have." In order to comply with this language in the instructions, CSC has removed from its rate card rate for the basic tier, any amounts refunded to subscribers (on a per subscriber per month basis).
 - In addition, for those systems for which a FCC Form 1235 was filed, any basic service tier rate increases implemented based on the 1235 filing have been removed from the rate card rate.
