

## **Instructions**

**Do not include this sheet in the Annual Report you send to the Commission**

We have included general instructions below to assist you in completing the report.

### **General Information**

There are three Excel files that make up the annual report. The files are called TELCOAR.XLS, AJCDR.XLS and TCMR.XLS, respectively. TELCOAR.XLS is the main body of the report and is broken down into three sections: General Information; Financial and Accounting Information; and Operating Data. AJCDR.XLS is a supplementary report which contains Annual Joint Cost Data Report. TCMR.XLS is the Commission's Telecommunication Competition Monitoring Report and replaces the Transitional Monitoring Report.

The pages/schedules in each file are separated by Tabs. The names of the Tabs in TELCOAR.XLS are arranged by Schedule Number. The names of the Tabs in AJCDR.XLS and TCMR.XLS are arranged by page number. A Table of Contents is provided in TELCOAR.XLS and TCMR.XLS. (Tab called Table).

Each file includes a tab called a Data Sheet. The completion of the Data Sheet will automatically transfer your company's name and year of the report to each page of the annual report. There are numerous formulas and cell references in both files. The cells that contain the formulas and cell references have been protected. To unprotect these cells, the following instructions should be used: Format/Cells/Protection and uncheck "Locked" (Please use caution after unprotecting cells).

We have checked the accuracy of the formulas and cell references in the file. However, all corrections may not have been made because the file was slightly revised this year. If you feel that certain formulas or cell references in the file are incorrect, unprotect the incorrect cell and input the correct number, and describe the change made on the "Comment" sheet provided.

### **Insert Pages**

Due to a large amount of data, some companies will be required to file additional pages to complete certain schedules. If you are required to prepare insert pages, insert pages have been provided in the workspace below the applicable schedule. The totals of the insert pages should be inputted on the related schedule. The print function will not print the insert pages. As a result, you will have to print these schedules manually.

### **Printing Individual Schedules on the File**

To print a schedule, select the schedule you want by clicking on the tab for that schedule. Then click on File/Print in the menu bar. In the "Print what" portion of the resulting "Print" dialogue box select "Active sheet(s)", and then click on "OK."

### **Saving the File**

As stated above, the name of the two files are TELCOAR.XLS, AJCDR.XLS and TCMR.XLS. It is advised that you call up the file and then immediately save it using the assigned file names as shown below.

### **Print the Entire Report**

When you have completed the report, you may want to print out the entire report. To do this, follow the instructions above for printing individual schedules except, in the "Print what" portion of the "Print" dialogue box, select "Entire workbook".

**1. GENERAL INSTRUCTIONS**

1. The completed original of this report shall be filed with the Public Service Commission, Albany, NY, on or before the 31st of March next following the end of the year to which the report applies. At least one additional copy shall be retained in the files of the reporting telephone corporation.
2. If the respondent considers any information requested on a schedule to be of a proprietary nature, as defined in 16 NYCRR, Chapter 1, Section 6-1.3 of Chapter 1 of the Rules of Procedure, the schedule as included in the report forms should be filed as directed by the Commission. However, the respondent is required to file one complete copy of each schedule deemed proprietary, including all detail requested, accompanied by a request for proprietary treatment, with the Records Access Officer, in accordance with the Rules of Procedure of Title 16, NYCRR, Chapter I, Section 6-1.3(b). However, the company must still file such additional "Public" copy as required (one conformed copy) with the proprietary information blocked out and accompanied by a letter stating that this was done.
3. All telephone corporations upon which this report form is served are required by statute to complete and to file the report. The statute further provides that when any such report is defective or believed to be erroneous, the reporting corporation shall be duly notified and given reasonable time within to make the necessary amendments or corrections. All data comprising this report shall be submitted in permanent form, i.e., washable ink or washable reproductions should not be used.
4. All accounting terms and phrases used in this form are to be interpreted in accordance with the effective applicable Uniform System of Accounts prescribed by this Commission as set forth in 16 NYCRR, Subchapter E, Article 1 (Case 8579). The Uniform System of Accounts defines Class A companies as those with annual revenues from regulated telecommunications operations of \$100 million or more. Class B are defined as those with annual revenues from regulated telecommunications operations of less than \$100 million. Whenever the term respondent is used, it shall be understood to mean the reporting telephone corporation.
5. Standard accounting procedures will apply in determining the nature of any entry (e.g. Uncollectibles, a revenue item, is normally a debit entry, and should be entered as a "positive" number unless the reported balance is a "credit"). Entries of a reverse or contrary character shall be indicated by parentheses around the number.
6. If the report is made for a period less than the calendar year, the period covered must be clearly stated on the front cover
- and elsewhere throughout the report where the period covered is shown. When operations cease during the year because of the disposition of property, the balance sheet and supporting schedules should consist of balances and items immediately prior to transfer (for accounting purposes). If the books are not closed as of that date the data in the report should nevertheless be complete, and the amounts reported should be supported by information set forth in, or as part of, the books of account.
7. All instructions shall be followed and each question shall be answered fully and accurately. Sufficient answer shall appear to show that no question or schedule has been overlooked. The expression "none" or "not applicable" shall be given as the answer to any particular inquiry or schedule where it truly and completely states the fact. Unless otherwise indicated, no information will be accepted which incorporates by reference information from another document or report, Where information called for herein is not given, state fully the reason for its omission.
8. The report should not be permanently bound. Extra copies of any page of the report will be furnished on request. If necessary or desirable to insert additional statements for the purpose of further explanation of accounts or schedules, they shall be legibly made on paper of durable quality and shall correspond to this form in size of page and width of margin. Additional sheets, ruled either vertically or horizontally, will be furnished on request. Inserts, if any, should be appropriately identified with the schedules to which they relate.
9. If the telephone corporation conducts operations both within and outside the State of New York, data should be reported so that there will be shown the number of subscribers within this state, and (separately by accounts) the operating revenues from sources within this state, and the plant investment as of the end of the year within this state.
10. Whenever schedules call for comparison of figures of a previous year, the figures reported must be based upon those shown by the annual report of the previous year or an appropriate explanation given why different figures were used.
11. Throughout the report money items shall be shown in units of dollars adjusted to accord footings. Omitting cents does not apply, however, to items in which cents are of significance as, for instance in averages and in unit costs.
12. In the space provided on the upper outside margin of each page there should be inserted (by rubber stamp, if desired), the name of the respondent and the year to which the report relates.

## Comment Sheet

Please use this sheet to record any changes you made to this file. If you altered this file in anyway, except by entering data, you must record those changes here. You may also use this sheet to make any comments about this file or the joint cost file.

**4. CONTROL OVER RESPONDENT**

If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by trustee(s), state name of trustee(s), name of beneficiaries for whom trust was maintained, and purpose of the trust. If other companies are controlled by the organization which holds control over the respondent, list the names of such companies and the kind of business each is engaged in.

None

6-A

6-C

Print as needed.

## 5. CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Foot- note Ref. (d)
Oneida County Long Distance	Long Distance Telephone Service	100%	

### DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

**6. HOLDERS OF VOTING SECURITIES**

1. Report the requested information for each holder of record of five percent or more of the voting capital or, if there are fewer than ten such holders, the ten who hold the highest voting powers. Data should be the latest available nearest the end of the year. When the holder of record is a trustee, or other intermediate agency (except a corporation), the data should be reported opposite the names of the beneficial owners, designated as such, under a general heading identifying the trustee or other agency. For corporations listed hereunder as holders of voting securities, see the next succeeding schedule. Securities with contingent voting rights may be disregarded.
2. Attach hereto a certified copy of every effective voting trust established under Section 621 of the Business Corporation Law and a certified copy of every other agreement (trustee or otherwise) under which voting securities are held for beneficial owners. If any such agreement has been filed with a previous report, reference to the earlier report will be sufficient provided changes or modification since filing are shown.

**7. VOTING POWERS AND ELECTIONS**

1. Has each share of stock the right to one vote? \_\_\_Yes\_\_\_\_\_

2. Are voting rights attached only to stock? \_\_\_Yes\_\_\_\_\_

(if the answer to either query 1 or 2 is "No", give full particulars in a note.)

3. Is cumulative voting permitted? \_\_\_No\_\_\_\_\_

4. State the place and date of the latest general meeting held prior to the end of the year for the election of directors.

Holland Patent, NY December 29, 2011

5. State the total number of votes cast at such general meeting \_\_\_814.50\_\_\_\_\_and the total number cast by proxy \_\_\_24\_\_\_\_\_.

6. State the total number of voting security holders \_\_\_7\_\_\_\_\_ and the total of all voting securities \_\_\_898.50\_\_\_\_\_ as of such date.

7. If any security has preferences, special privileges, or restrictions in the election of directors, trustees or managers, or in the determination of any corporate action, give details.

**8. IMPORTANT CHANGES DURING THE YEAR**

Report important changes of the types listed. Except as otherwise indicated, data furnished should apply to the same period the report covers. Answers should be numbered in accordance with the inquiries, and if "none" states the fact, it should be used. If information which answers an inquiry is given elsewhere in the report, identification of the other source will be sufficient.

1. Changes in rights to furnish service, i.e. distribution franchises or similar consents: For each franchise surrendered show the name of the municipality, date of grant, and date of surrender. For each franchise acquired, show the grantor, the date, the specific territory covered, the party from whom acquired, and the consideration.
2. Consolidations, mergers and reorganizations: Give names of other companies involved, particulars of each such incident, date, and Commission authorization.
3. Purchase or sale of entire property, or a part of property when service territory is included: Give brief description of each transaction, name of the other party, date, consideration and Commission authorization.
4. Lease of property (to or from another) of the kind covered by the preceding inquiry: To the extent applicable give details corresponding to those required by the preceding inquiry.
5. Securities issued during the year: Identify the securities, give purposes of issuance, date, consideration received and Commission authorization. As here used the term "securities" shall be taken to mean any capital stock or debt, the issuance of which requires prior authorization by this Commission.
6. Changes in rates: Show brief particulars of each intrastate rate change, the estimated increase or decrease in annual revenues by reason of such changes, the service classification, effective date, and date ordered or allowed by the Commission. Give the same information for interstate rate changes.
7. Changes in scales of wages: State the estimated annual effect and nature of any important wage scale changes during the year.

All lines except line 6 are balances at beginning of year plus balances at end of year divided by two.

\* Allowance based upon collection of revenues and operating expenses:

For Example:

	Amount	Percentage	Lag Days	Weighted Days
1. Advance Billings (Local Service, etc.)	\$40	40.0%	15	6
Arrears Billings (Toll, etc.)	60	60.0%	45	27
	<u>\$100</u>	<u>100.0%</u>		<u>33</u>

2. Weighted Days - 33 divided by 365 days equals 9.04%

3. Operating Expenses minus Depreciation multiplied by 9.04% equals Cash Working Capital

**10. Instructions for Rate of Return and Return on Common Equity****RATE OF RETURN AND RETURN ON COMMON EQUITY COMPUTATIONS:**

- Line 1: Income Available for Return and Calculation of Rate Base  
 Column (a): Page 12, Line 29, Column (e)  
 Column (b): Page 12, Line 29, Column (f)
- Line 2: Income Available for Return and Calculation of Rate Base  
 Column (a): Page 13, Line 14, Column (e)  
 Column (b): Page 13, Line 14, Column (f)
- Line 3: Rate of Return  
 Columns (a) and (b): Divide Line 1 by Line 2
- Line 4: Return on Common Equity  
 Column (a): Line 10, Column (c)  
 Column (b): Line 16, Column (c)

**CAPITAL STRUCTURE:**

- Column (a): The amount in Column (a) reflects the average balance in the reporting year for Long-Term Debt (including current maturities), Notes Payable, Customer Deposits, Preferred Stock and Common Equity (Total Stockholder's Equity less Preferred Stock).
- Column (b): The structure column reflects the percentage of total capitalization that each component represents.
- Column (c): The cost rate column reflects the actual cost of debt, customer deposits and preferred stock preferred stock experienced in the reporting year. The cost rate is derived by dividing the interest expense and/or preferred stock dividends by the respective average debt or preferred stock balance. The return on common equity is a calculated amount.
- Column (d): The weighted cost column represents the cost rate of the total capitalization and is equal to the respective rate of returns (Line 3, Column (a) by Column (b)). Once the weighted cost of debt (Long-Term Debt, Notes Payable, Customer Deposits) and preferred stock are totaled and then subtracted from the respective rate of return, the fall out number is the weighted cost of common equity. The return on common equity (Column (c) ) is derived by dividing the weighted cost of common equity (Column (d) ) by the Common equity percentage of total capitalization (Column (b) ).

**ALTERNATIVE CAPITAL STRUCTURE**

For companies who are required to report their achieved returns to this Commission on a regular basis and companies that use alternative capital structures for ratemaking purposes, report the capital structure used for that purpose herein. Explain the basis for the capital structure used.

- Line 5: Required Additional Revenues:
- Column (a): Multiply the rate base (Line 2, Column (a) ) by the common equity percentage of total capitalization (Line 10, Column (b) ). Take this Product and multiply by 1% and then divide the result by 63.5%. The resulting product is the additional revenues.
- Column (b): Multiply the rate base (Line 2, Column (b) ) by the common equity percentage of total capitalization (Line 16, Column (b) ). Take this product and multiply by 1% and then divide the result by 63.5% The resulting product is the additional revenues.

It should be noted that these calculated rates of return and common equity returns are not intended as an evaluation of the reasonableness of the earnings of any utility under the jurisdiction of the Public Service Commission. Also, the

computed in a formal rate proceeding. Differences may occur because the data in formal proceeding are analyzed in detail and some adjustments are usually made to booked amounts.

\* Use alternative capital structure if applicable.

**19. ANALYSIS OF ENTRIES IN ACCUMULATED DEPRECIATION**

- For the total of accrual reflected in column (c), show in a note the amounts concurrently charged to Accounts 6561, 6562 and to other accounts (specify).
- Include in columns (d), (f), (g) and (h) the amounts on open retirement work orders carried in sub-account 3100.01, Retirement Work in Progress.
- With respect to items in columns (e) and (i), include in a note the contra accounts charged or credited together with an explanation of the entries.

**20. BASIS OF CHARGES FOR DEPRECIATION**

- Each type of plant for which a separate depreciation rate is determined and applied in the accounts shall be considered as a subclass for the purpose of this schedule.
- The estimated net salvage factors in columns (c) and (i) shall be shown as a percentage of original cost. Columns (b) and (c) shall be left blank only when two or more subclasses are indicated in Section II.
- The rate to reported in column (d) with respect to an account for which subclasses are indicated in Section II is the composite rate productive of an amount equal to the sum of the estimated annual charges for the constituent subclasses, produced by applying (actually or in effect) the individual rates set forth in column (j), to the book cost of each subclass.

4. Report in column (e) the ratios of the depreciation charge actually included in the accounts to the average monthly book costs of the plant indicated. The average monthly book cost shall be determined by dividing by 12 the sum of the monthly book cost to which the depreciation rates were applied.

5. In column (f) indicate the number of the primary plant account in which the listed subclasses are included.

6. Amounts in columns (k) and (l) shall be reported only to the nearest dollar. Such amounts shall be totaled by primary classes and the appropriate composite rate shall be entered in column (j) opposite the respective totals in order to prove the correctness of the compositing (unless the compositing is by some other process, in which event the procedure used shall be described in a note).

**46. MISCELLANEOUS TAX REFUNDS**

1. Report below particulars concerning all tax refunds received or used as a reduction of taxes payable during the year which are not more than \$1.5 million or do not exceed \$1,000 and 0.2% of the utility's operating revenues. This information is requested in compliance with Section 89.3, Notification Concerning Tax Refunds, of 16 NYCRR. This report shall be inapplicable to ordinary operating refunds that are not attributable to negotiation or to new legislation, adjudication, or rulemaking (such as refunds for overpayment of estimated taxes, and carrybacks of net operating losses and investment tax credits).
2. In determining whether a refund exceeds 0.2% of operating revenues for purposes of this report, the operating revenues of a telecommunication utility shall not include interstate revenues.
3. In determining whether a refund meets the criteria stated in Instruction 1 above, multiple refunds shall be treated as a single refund if they share a common cause such as a common act of negotiation, legislation, adjudication
4. or rulemaking. In this report, the utility also shall either propose a method of distributing to its customers the entire amount refunded or show why it should not make such a distribution.

## 47. RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report hereunder a reconciliation of reported net income for the year with taxable income used in computing Federal Income tax accruals and show computation of such tax accruals. The reconciliation shall be submitted even though there is no taxable income for the year. Descriptions should clearly indicate the nature of each reconciling amount.
2. If the telecommunication company is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

**53. Employee Protective Plans**

Report a summary of each employee program in effect at any time during the year. This schedule is intended to cover pension, profit sharing, group life insurance, accident and sickness, medical, hospital, prescription drugs, guaranteed annual wage, severance pay, and any other plan maintained for employees (or retirees), but it is not intended to cover such a plan required by law, (e.g. social security).

For each plan report:

1. the identity thereof, and the employee group covered (e.g. management, non-management, executive officers, etc.)
2. whether the benefits are provided through an insurance carrier or directly by the company.
3. the total cost for the year.

Note: If any important change is made with respect to any such plan during the year, give brief particulars.

**54. ANALYSIS OF PENSION COST**

1. On lines 1-21 report the terms of the Pension Plan for the holding company or parent company; on lines 22-32 report details for the reporting company. If the reporting company has more than one pension plan, report each using separate forms.
2. Report on line 1 the actuarial present value of benefits determined as of a specific date during the calendar year according to the terms of a pension plan and based on employees' compensation and service to that date (salary progression is not considered in making this computation).
3. Report on line 2 the actuarial present value of all benefits attributed to employee service up to a specific date, based on the terms of the plan including salary progression factor for final pay and career average pay plans.
4. Report on line 3 the amount the pension plan could expect to receive for investments in a sale between a willing buyer and a willing seller, other than in a forced or liquidation sale.
5. Report on line 8 the discount rate which was used to calculate the obligations reported on Lines 1 and 2.
6. Report on Line 9 the expected long-term return on plan assets.
7. Report on line 14 the net asset gain or loss deferred during the reporting year for later recognition. Do not include in this amount amortization of previously deferred gains or losses as these amounts are to be reported on line 17.
8. Report on lines 19 thru 21 and lines 29 thru 32 the number of persons covered by the plan at the BEGINNING of the policy year.
9. Report on line lines 21 and 32 the numbers of persons having vested pension rights but who are no longer employed by the company and not yet drawing a pension allowance.
10. On line 22, the term "Minimum Required Contribution" shall mean the payment by the employer to its employees' pension fund necessary to meet the requirement set forth in the Employee Retirement Income Security Act of 1974.
11. On line 24, the term "Maximum Amount Deductible" shall mean the amount of pension expense that is allowable under Section 415 of the Internal Revenue Code.
12. Report on line 26 the dollar amount applicable to the reporting company which has been included in the amount on line 18.
13. Report on line 27 the dollar amount included on line 26 which has been capitalized.

For the above plan, specify and explain in the space below any accounting changes or changes in assumptions or elected options made during the reporting year. Quantify the effects of each such revision on each of the amounts reported on page 85. Use a separate insert sheet if more space is required.

\* Specify in the space below the reason(s) for any difference between the amounts reported on lines 23(b) and 24(b).

**55. ANALYSIS OF PENSION SETTLEMENTS, CURTAILMENTS, AND TERMINATIONS**

1. Report the amount of gains or losses arising from employee termination benefits or settlements, partial settlements, curtailments or suspensions of pensions or pension obligations during the year. If none have occurred, or they qualified as "small settlements" under SFAS-88 and the company elected not to recognize the gain or loss, state "none" on line 5 and complete the applicable sections on the bottom of the form. Use separate forms to report the effect of each event and, if the event affected more than one plan, use separate forms for each plan. These events include:
  - a. purchases of annuity contracts.
  - b. lump-sum cash payments to plan participants.
  - c. other irrevocable actions that relieved the company or the plan of primary responsibility for a pension obligation and eliminates significant risks related to the obligation and assets.
  - d. an event that significantly reduces the expected years future service for present employees who are entitled to receive benefits from that plan or that eliminates the accrual of benefits for some or all of the future services of a significant number of those employees.

If this is the first year the company is subject to the reporting requirements of this schedule, complete separate forms for each reportable event having occurred since the company's adoption of SFAS-87 and include those forms in the current Annual Report.

2. In line 1-15 report activities for holding company or parent company; on line 16-18 report details for the reporting company.
3. Report on line 1 the amount of overfunding remaining (excess of plan assets, adjusted for accrued or prepaid pension costs, over the Pension Benefit Obligation), if any, from when the company first complied with SFAS-87. The amount should be adjusted by the year-to-date amortization.
4. Report on line 2 the actuarial gains and losses that occurred in prior fiscal years following compliance with SFAS-87 but have not yet been amortized. The amount should be adjusted by the year-to-date amortization.
5. Report on line 3 the actual return on plan assets (the sum of investment income and appreciation).
6. Report on line 4 the expected return on plan assets (a component of the current-year expense calculation, which should be prorated for the elapsed portion of the current year).
7. Report on line 6 the Pension Benefit Obligation (PBO) updated from the previous year-end figure to the settlement date. This amount should reflect the addition of a pro rata portion of the service cost and interest cost and the subtraction of benefit payments. It should also reflect any plan changes made during the year.
8. Convert the basis points and percentages reported on line 7 and 8 to their decimal equivalents before entering them in the formula on line 9.
9. Report on line 17 the applicable Federal income tax rate. Although no tax is currently payable on the gain and loss, it should be reflected because it represents a reduction of future pretax pension expense.

State separately below for each reportable event having occurred since the company's initial compliance with SFAS-87, and for which amortization of deferred gains or losses was not completed by December 31 of last year, the (1) type of event, e.g. settlement or curtailment, (2) date of occurrence, (3) amount of gain or loss originally deferred, (4) period of amortization specified by beginning and ending dates, and (5) amount of the current year's amortization.

If the event qualified as a "small settlement" under SFAS 88, and the company elected not to recognize the gain or loss, state:

a. number of employees affected

b. the cost of the settlement

c. the amount of PBO settled

**56. ANALYSIS OF OPEB COSTS, FUNDING, AND DEFERRALS**

1. Report on Pages 88 through 91, the requested data concerning Postretirement Benefits Other than Pensions (OPEB). For these schedules, the measurement date, calculation of the data requested, and separate reporting for different types of OPEB plans shall be consistent with the disclosure requirements specified in SFAS-106 (Paragraphs 72-89). If the reporting company's OPEB benefits are provided through a joint plan with its parent company or holding company, report under the columnar heading "Total Company" the data applicable to the total plan (i.e., that of the parent or holding company). The columnar heading "New York State Jurisdiction" refers to the New York State jurisdictional operations of the reporting company, exclusive of amounts applicable to subsidiary companies which are subject to the Commission's jurisdiction but are separately reported.
2. The quantification of amounts reported on Lines 1 - 12 shall be as of the date reported on Line 13.
3. Report on Lines 1 - 3 the actuarial present value of benefits attributed employees' service rendered to the date reported on Line 13.
4. Report on Line 4 the amount the OPEB plan(s) could expect to receive for investments in a sale between a willing buyer and a willing seller, other than in a forced or liquidation sale.
5. Report on Lines 5 and 6, the amounts applicable to OPEB that are recorded in internal reserves, net of their related deferred income tax effect. For New York State Jurisdictional Operations, creation of an internal reserve was required by the Commission's "Statement of Policy and Order Concerning the Accounting and Ratemaking Treatment for Pensions and OPEB" ( issued September 7, 1993).
6. Report on Line 10 the amount of unrecognized net gain or loss (including plan asset gains and losses not yet reflected in the market-related value of the plan assets).
7. Report on Line 11 the amount of unrecognized net asset gain or loss not yet reflected in the market-related value of plan assets.
8. In certain instances, a portion of the New York State Jurisdiction OPEB internal reserve may not be subject to the accrual of interest (e.g. in the company's last rate case a portion of the reserve may have been used to reduce rate base). Report on Line 12 the balance of the reserve, net of its related deferred income tax effect, which is subject to the accrual of interest.
9. Report on Line 14 the discount rate which was used to calculate the obligations reported on Lines 1-3.
10. Report on Line 15 the expected long-term return on plan assets reported on Line 4.
11. Report on Line 21 the net asset gain or loss deferred during the reporting year for later recognition. Do not include in this amount amortization of previously deferred gains or losses as these amounts are to be reported on Line 24.
12. The amount reported on Line 24 is to include the amortization of gains and losses arising from changes in assumptions.

For each plan, specify and explain in the space below any accounting changes or changes in assumptions or elected options made during the reporting year. Quantify the effects of each revision on each of the amounts reported on Page 89. Use a separate insert sheet if more space is necessary.

1. The data requested on Lines 1 through 12 are for the internal reserve, the establishment of which is required by the Commission's "Statement of Policy and Order Concerning the Accounting and Ratemaking Treatment for Pensions and Postretirement Benefits Other Than Pensions" (Case 91-M-0890, issued and effective September 7, 1993). The amounts reported below are to be consistent with the definitions and intent contained in that Statement.
2. The "rate allowance" to be reported on Line 2 is the amount which was projected to be charged to expense accounts (i.e., not charged to construction, depreciation, nor the rate base allowance related to capitalized OPEB costs) in the company's latest rate proceeding, adjusted to actual Kwh (etc.) sales as per the above Policy Statement.
3. The amount reported on Line 9 less the amount on Line 10 should total the amount reported on Line 5 of Page 89.
4. In certain instances, a portion of the OPEB internal reserve may not be subject to the accrual of interest (e.g., in the company's last rate case, a portion of the reserve may have been used as a rate base reduction). Report on Line 12 the balance of the reserve, net of its related deferred income tax effect, which is subject to the accrual of interest.
5. The Commission's September 7, 1993 Policy Statement on pensions and OPEB stated that, except under certain circumstances, the difference between 1) the rate allowance for OPEB expense, plus any pension related or other funds or credits the company is directed to use for OPEB purposes, and 2) OPEB expense determined as required therein, are to be deferred for future recovery. 1. Show the particulars called for concerning telephone calls originating from respondent's stations in each of the general divisions of territory in which telephone service is given by the respondent within the State of New York. Divisions of territory lying wholly outside the State of New York may be grouped under one heading.
2. The numbers shown in column (c) may be based on an actual count taken periodically during the year. Describe in a note the general characteristics of the methods employed in arriving at the numbers shown.
3. As used in this schedule, a "local call" means one between two points, both of which are within the local service area of the calling telephone; and a "toll call" means one to a point outside of the local service area of the calling telephone.

**63. STATISTICS RELATING TO TELEPHONE SERVICE QUALITY**

1. To calculate the Average for the Year for column (b) below, add together each of the monthly company-wide results and divide by 12.
2. Measurement Opportunities are the total number of monthly measurements for the year taken at the appropriate entity reporting level (e.g., central office entity for Customer Trouble Report Rate; Maintenance Center for Percent Out-of-Service Over 24 Hours, etc.).
3. "Objective Level", "Weakspot Level", and "Surveillance Level Failure" are defined in the Commission's Telephone Service Standards (Section 603 of 16NYCRR). Certain smaller companies may not be required to report on all of the following service measurements. Please refer to the Service Standards before completing the following schedule.
4. For Business Office Answer, Repair Service Answer, Directory Assistance Answer, Intercept Answer, and Toll & Assistance Answer specify which of the two alternative standards the company used during the year. (See Section 603.12 (d) of 16 NYCRR.)
